

T. Bailey Fund Services Limited ("TBFS") in its capacity as the Authorised Corporate Director for the TB Enigma Global Sector Rotation Fund (the "Fund") continuously reviews the value the fund delivers to investors throughout the year. This annual report enables TBFS to provide you with its assessment that the Fund delivers value on a consistent basis. Where issues have been identified, TBFS is engaged, seeking improvements.

This report summarises the conclusions reached by the TBFS Board of Directors and the TBFS Fund Governance Committee ("FGC") on whether The Fund has delivered value to investors during the period. The framework used by TBFS takes into account seven criteria as outlined below. In order to reach this conclusion, TBFS has analysed Fund information on costs, services and performance and has also made comparisons where appropriate. TBFS has also engaged with Ekins Guinness LLP, the Investment Adviser and Sponsor of the Fund, as part of the process. This report is a summary of the overall conclusions reached, split by the seven criteria.

The overall assessment for each criteria is shown by the colour of the circle: Green is satisfactory (the Fund is delivering value based on that measure), Amber means some issues have been identified and Red means the Fund is not delivering value based on that measure and action is required to rectify.

The report concludes with an overall assessment of value which takes into account all of the seven criteria.

### Is the performance of the Fund, after charges over an appropriate timescale, in line with the Fund's investment objectives, policy and strategy?

#### Performance

##### Review performed:

- Review of Fund performance after costs compared to stated objectives to provide capital growth over the long term (periods of five years or more).

##### Conclusion:

- As the launch date of the Fund is 7 November 2022, the Fund does not have performance data for a complete 12-month period, so there is insufficient data available to provide a useful indication of past performance to investors and therefore provide an effective assessment of its performance.

#### Costs

##### Review performed:

- Review of Fund costs including the Periodic Charge and other elements which make up the Ongoing Charges Figure ("OCF").

##### Conclusion:

- Costs charged to the Fund are consistent with Prospectus disclosures and are charged at competitive rates.
- External costs are in accordance with agreed rates.
- Periodic reviews of external provider costs are made to ensure services are provided on a competitive basis.
- The Periodic Charge of the Fund is fixed which helps to keep the OCF low while the Fund is small to benefit investors as the majority of the costs normally paid for by the Fund are paid by the Sponsor.

##### Steps taken as part of, or as a consequence of, assessment:

- None.

### Have economies of scale been passed onto investors as the Fund has grown?

#### Economies of Scale

##### Review performed:

- Review of total Fund costs (OCF) over time compared to Fund size.

##### Conclusion:

- The Fund is £1m in size and the Fund size has grown slightly since launch.
- The fixed Periodic Charge helps to keep the OCF of the Fund low while the Fund is small to benefit investors.
- Due to the recent launch and current size of the Fund, no such savings from economies of scale could be achieved.

##### Steps taken as part of, or as a consequence of, assessment:

- None.
